@2025 Alle teksten, sinds 1989 geschreven door Harm Bartholomeus, Sytze de Bruin, Ron van Lammeren, Bart Slagter, Arno Timmer en John Stuiver, zijn geïnspireerd op onderwijs, onderzoek, beleid en beheer bij de leerstoelgroep GRS, ESG, Wageningen University. De teksten zijn te gebruiken volgens

Uitvoering van de liedjes vindt plaats in verschillende samenstellingen van de Legendary MGI Band. Op 2 juli 2025 bestond die uit Harm Bartholomeus, Sytze de Bruin, Ron van Lammeren, Bart Slagter, en Arno Timmer.

De herkomst van de muziek staat per lied vermeld.

## [1] Ai m'n model – My Sharona - The Knack

Je maakt er het beste van  
Doet wat je kan  
Toch is het niet echt want je bent  
Ai m'n model

Parameters lust je rauw  
Het komt heel nauw  
Gevoeligheid ten top want je ben  
Ai m'n model

Tot je ermee stopt  
Gaat kapot  
Volgepropt met data  
Oh daar baal ik van  
Man o man  
Zo hard ik kan, want je bent  
Alles wat ik heb, wat ik kan, wat ik wil  
Je bent m'n  
Ai, ai, ai, ai, ai, ai, ai, ai

Ai m'n model

Ai m'n model

Je maakt er het beste van  
Doet wat je kan  
Toch is het niet echt want je bent  
Ai m'n model

Parameters lust je rauw  
Het komt heel nauw  
Gevoeligheid ten top want je ben  
Ai m'n model

Tot je er mee stopt!!!

**[2] Crazy ArcGIS -**  
**This thing called love - Queen**

This thing, ArcGIS,  
I just can't handle it,  
This thing, ArcGIS,  
I should get used to it,  
I don't get it,  
Crazy stupid thing ArcGIS.

This thing ArcGIS  
It crashes when I digitize  
It's slow Won't go  
And turns my data in a giant mess,  
I really hate it  
Crazy stupid thing ArcGIS

Where are my data?  
I can't find them anymore.  
Can't find my toolbox,  
she gives me hot and cold fever,  
Leaving me real depressed...

I thought it was cool, relaxed, real hip  
To mark my track's  
Make maps, analyze  
Finding brilliant ways to impress some guys  
But I ain't ready  
Crazy stupid thing ArcGIS

I wanna be cool, relaxed, a geek  
And if it's really needed  
Make maps, analyze  
Find brilliant ways to impress some guys  
But I don't get it (What do you say?)  
Crazy stupid thing ArcGIS

This thing ArcGIS I just can't handle it  
This thing ArcGIS I must get used to it  
I don't get it...

Crazy stupid thing ArcGIS 4x

### [3] Script Flow, AI Chariot – Swing Low, sweet chariot - traditional

Script flow, AI Chariot > Training for to keep us home  
Script flow, AI Chariot > Training for to keep us home

I looked over Dall-E, and what I didn 't see >Training for to keep us home  
A band of agents coming after me >Training for to keep us home  
[CHORUS]

Sometimes thumbs up, and sometimes thumbs down, >Training for to keep us home  
But still my emoticon doesn't feel bound. >Training for to keep us home  
[CHORUS]

The darkest day that I can say, >Training for to keep us home  
When my Wall-E lessons will wash away. >Training for to keep us home  
[CHORUS]

If I get there before you do, >Training for to keep us home  
Draw yourself a map and show me too >Training for to keep us home  
[CHORUS]

If I get there before you do, >Training for to keep us home  
Tell all your friends don't augment too. >Training for to keep us home  
[CHORUS]

Script flow, AI Chariot > Training for to keep us home,  
Script flow, AI Chariot > Training for to keep us home.

#### [4] Machine learning – Old Town Road – Lil Nas X

Take some old forgotten algorithm Call it ... machine learning  
Take some old forgotten algorithm Call it ... machine learning

I measured in the field - Biomass and yield  
Now you have to find – How they relate to something  
Amount of fresh manure- The wind or temperature  
I don' t really care - I will run a PCA, yeah

Can somebody tell me what's new here? Ain' t nothing new here  
Can somebody tell me what's cool here? Nothing new or cool here

Ridin' on a tractor Plantin' all my veggies  
Find the perfect mix of Soil ph and texture  
Just run a regression Will do it with passion  
Correlate whatever Using some least squares Yeah

Can somebody tell me what's new here? Ain' t nothing new here  
Can somebody tell me what's cool here? Nothing new or cool here

Take some old forgotten algorithm Call it ... machine learning  
Take some old forgotten algorithm Call it ... machine learning

Clustering k—means , support vector machines  
Regre—gre—gression trees? We' ve been doing it for years!  
Random forest has been run ANN results returned  
Don't put it in your title it's never gonna work, yeah!

If you want science with impact and papers to be read  
You better listen now to the advice we have  
Neglect it's all been done so many times before  
Just. . . call it: machine learning

Take some old forgotten algorithm Call it ... machine learning  
Take some old forgotten algorithm Call it ... machine learning

## [5] GitHub is the way - Dreadlock holiday – 10CC

I was working at my desk  
Concentrating on lines of code  
And I was thinking to myself  
This gives some heavy processor load

I need to change it, improve it,  
create another version  
Run these processes parallel  
and avoid that ..... Recursion

I say:

We don't like GitHub eh, oh no      We love it !!!

Don't you make a backup,  
don't you care about it  
Not expecting bad luck  
doesn't mean it won't happen.....

So I moved to version four  
Working on the same copy  
Someone came knocking at my door  
And I went out for a coffee

I saved my changes, I thought  
– so why not take a shower  
Stayed away for another hour,  
while the building lost power

I say:

We don't like GitHub eh, oh no      We love it !!!

Don't you make a backup,  
don't you care about it  
Not expecting bad luck  
doesn't mean it won't happen.....

GitHub is the way  
GitHub is the way  
GitHub is the way

## [6] Mappin'RTK - Surfin'USA – The Beach Boys

If everybody had a Trimble  
Or D.I.Y.K.  
Then everybody'd be mappin'  
Their garden every day  
You'd see 'em wearing their rover  
Radio installed  
And everybody'd be mappin'  
Mappin' R.T.K.

You'd catch 'em using GLONASS  
Galileo too  
GPS and EGNOS  
Along the milky way  
All over the country  
Up to the U.S.A.  
Everybody's gone mappin'  
Mappin' R.T.K.

We're all planning a route  
We're gonna take real soon  
We're loading all our batteries  
We can't wait till noon  
We're all gone for fieldwork  
All across the globe  
Tell my wife that I'm mappin'  
Mappin' R.T.K.

I measure hedges and grass fields  
Bike lanes and Palisades  
From the morning till Sunset  
I measure all the states  
All over the country  
I see the people play  
Everybody's gone mappin'  
Mappin' R.T.K.

Everybody's gone mappin'  
Mappin' R.T.K  
Everybody's gone mappin'  
Mappin' R.T.K  
Everybody's gone mappin'  
Mappin' R.T.K

## [7] Visualize – d’Israelites - Desmond Dekker

Woke up in the morning  
While the skies are grey  
Didn’t know what to do  
To make the blues go away  
Oh, oh visualize

Woke up in the morning  
While the skies are grey  
Didn’t know what to do  
To make the blues go away  
Oh, oh visualize

But what about analysis  
Ain’t that important too?  
The same for spatial models  
And the other things we do?  
No, no visualize

Oh, oh, hypothesize  
Oh, oh, sample size  
Oh, oh, analyse  
Oh, oh, visualize  
Oh, oh, synthesize

Woke up in the morning  
While the skies are grey  
Didn’t know what to do  
To make the blues go away  
Oh, oh visualize

Perhaps I’m too old fashioned  
And fail to understand  
But what we really need  
Is a decent blend  
Oh, oh wishful eyes

Oh, oh, hypothesize  
Oh, oh, sample size  
Oh, oh, analyse  
Oh, oh, visualize  
Oh, oh, synthesize  
Oh, oh, finalize

## [8] GIS girl – Galway girl – Steve Earl

Well, I took a stroll on the old long walk  
Of a day-I-ay-I-ay  
I met a little girl and we stopped to talk  
Of a fine soft day-i-ay  
And I wondered what, I was going to do  
'Cause her hair was black and her eyes were blue  
And I knew right then I'd be takin' a whirl  
Try to lose my heart to this GIS girl

[Instrumental Break]

We were halfway there when the rain came down, Of a day-I-ay-I-ay  
And she asked me up to her room downtown  
Of a fine soft day-i-ay  
and I wondered what, we were going to do  
'Cause her hair was black and her eyes were blue  
She showed me her maps, and many lines of code  
Her essays and thesis that she wrote

[Instrumental Break]

I stood up, went to my home  
.....  
With a broken heart and illusions gone  
.....  
And I ask you now, tell me what would you do  
If her hair was black and her eyes were blue  
I would run away, all over the world  
Never loose my heart to a GIS girl

[Instrumental outro]

## [9] Radar lovers - Because the night - Patti Smith

Use me now, baby, here as I am.  
A little vague, hard to understand.  
A little bit noisy, but that's part of me.  
But someday you'll love it, once you understand me

>Come on now, try and understand  
What I achieve when I'm in the right hands  
Biomass change, changing tree cover.  
Let's measure it now, let's measure it now, let's measure it now.

Because with clouds I can still measure.  
Because with clouds, I will still work  
Because day and night I can still measure.  
Where others will stop, I will go on...

But please don't underestimate me  
It's more than just through – the clouds I see  
Sentinel 1, band X, C, L and P  
Radar inter fero me trie :-)

>Come on now, try and understand  
What I achieve when I'm in the right hands  
That sleeping volcano, looks dormant  
It won't hurt you now, can't hurt you now, can't touch you now.

Because with clouds I can still measure.  
Because with clouds, I will still work  
Because day and night I can still measure.  
Where others will stop, I will go on...

[solo]  
Because with clouds I can still measure.  
Because with clouds, I will still work  
Because day and night I can still measure.  
Where others will stop, I will go on...  
Because with clouds I can still measure.  
Because with clouds, I will still work  
Because day and night I can still measure.  
Where others will stop, I will go on...

## [10] We'll program it in R – Whiskey in the jar – Thin Lizzy

When I went to the uni, learning about geo  
I thought that pressing buttons, was all that I would do-o  
But Dainius he taught us, that's not how we will work here  
Sayin': "I will try to teach you, to make your own life easier"  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

I stared at all this code and became a little nervous  
Will I ever manage, to do this without google?  
He sighed, and assured, that Stack overflow would save me,  
But I couldn't be convinced that it really was this easy.  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

When Dainius didn't watch us - for a little moment,  
I opened up a browser, to find my little wonder,  
But the TA -- he noticed, ChatGeePeeTee was opened  
And sent for Dainius, oh I was ready to be slaughtered  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

'T was early in week 4, when it all started to settle  
The nested structure of the script, it all became apparent  
GGplot did what I asked, made graphs and maps and tables  
No longer hidden secrets here, no miracles or fables  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

Now there's some take delight in a user interface-hey  
and others take delight in the really fancy looks ney  
but I take delight in the beauty of a function  
Which I wrote myself, to get my work all done-yeah  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

If ever I get stuck, with some code I have to run then  
I'm sure that I'll think back to lessons I was told when  
I felt a little lost, had no clue 'bout what I did  
And Dainius who told me "Just look it up on Git-hub"  
>Musha ring dum a doo dum a da, Forget ARC-GIS, Forget ol' Erdas-hey:  
We'll program it in R.

**BREAK**

## [11] Werkplek - Get Back - The Beatles

Ik ken een krappe kamer met een flexy werkplek  
De toekomst van de arbeidstek  
Stap je in die kamer met die flexy werkplek  
Dan volgt spontaan een zenuwtrek  
Tafelblad omhoog, Stoelleuning omlaag  
R. . S. . I. . krijgt de volle laag  
Muizen met de mond, Muizen met de voet  
Het Arbo team weet hoe dat moet

Werkplek Werkplek, Leren van je werkplek  
Werkplek Werkplek ,Leren van je werkplek

Ik ken een krappe kamer met een flexy werkplek  
De toekomst van de arbeidstek  
Stapje in die kamer met die flexy werkplek  
Dan volgt spontaan een zenuwtrek  
Beeldscherm omhoog, Tafelblad omlaag  
R. . S. . I. . krijgt de volle laag  
Muizen met de mond, Muizen met het oor  
Het Arbo team weet hoe dat moet

Werkplek Werkplek, Leren van je werkplek  
Werkplek Werkplek ,Leren van je werkplek

[solo]

Ik ken een krappe kamer met een flexy werkplek  
De toekomst van de arbeidstek  
Stapje in die kamer met die flexy werkplek  
Dan volgt spontaan een zenuwtrek  
Stoelleuning omhoog, Beeldscherm omlaag  
R. . S. . I. . krijgt de volle laag  
Muizen met de mond, Muizen met het oor  
Je weet intussen hoe het moet

Werkplek Werkplek ,Leren van je werkplek  
Werkplek Werkplek ,Leren van je werkplek  
Werkplek Werkplek ,Leren van je werkplek  
Werkplek Werkplek ,Leren van je werkplek

Werkplek

## [12] It always rains again in Wageningen- It's Raining Men – Weather girls

Pictures on the website – beautiful blue skies  
The sun is casting shadows, people chillin' outside  
But as soon as you arrived here  
On the airport – half past ten...  
Dis-appoint-ment did kick in  
It's was already raining then...

It Rains Again! In Wageningen! – It Rains again! Oh no!  
Cycling to campus you will get  
Absolutely soaking wet!

It Rains Again! In Wageningen! –  
It Rains Again! Every Single day!  
Morning, evening, afternoon..  
Buy yourself a raincoat soon!

Forget those pretty pictures, reality will soon kick in  
September to august, there is no end, just a begin

It's better to accept it, embrace the greyish skies  
So that each and every cloudy day, you go out with a smile

It Rains Again! In Wageningen! – It Rains again! Oh no!  
It Rains Again! In Wageningen! – It Rains again! Oh no!

Every morning stormy weather moving in  
About to begin  
Hear the thunder  
Skip the lecture and stay in bed!

Forget those pretty pictures, reality will soon kick in  
September to august, there is no end, just a begin  
It's better to accept it, embrace the greyish skies  
So that each and every cloudy day, you go out with a smile

Pictures on the website – beautiful blue skies  
The sun is casting shadows, people chillin' outside  
But as soon as you arrived here  
On the airport – half past ten...  
Dis-appoint-ment did kick in  
It's was already raining then...

It Rains Again! In Wageningen! – It Rains again! Oh no!  
It Rains Again! In Wageningen! – It Rains again! Oh no!  
It Rains Again! In Wageningen! – It Rains again! Oh no!  
It Rains Again! In Wageningen! – It Rains again! Oh no!

### [13] Need an internship - Dancing In the Streets – Mick Jagger / David Bowie

Okay.. Africa, Asia, Australia, the Americas,..... Dwingeloo, Noordeloos

Calling out around the world, Are you ready for a brand new feat  
Summer's here and the time is right, need an internship

Lookin' in Dwingeloo (---), Down in Noordeloos (---\_) In New York City? (---)

Oh, All I need is a topic, a sweet topic, There are topics everywhere  
There'll be swinging and swaying, and discs a playin'  
Need an internship,

Oh, it doesn't matter what you wear  
Just as long as you are there,  
Everyone, find a thrill, everywhere around the world  
I Need to, Need to find an internship

It's an invitation across the nations, a chance for folks to meet  
There'll be graphing, printing and topics flying.  
Need an internship

At C.G.I. (Need an internship), At Sweco (Need an internship),  
Don't forget the Kadaster (Need an internship)  
What about Arcadis (Need an internship) And there is E S R I (Need an internship)  
And there is GeoCAT (Need an internship)

Oh, It doesn't matter what you wear  
Just as long as you are there,  
Everyone, find a thrill, everywhere around the world  
I Need to, Need to find an internship

[solo]

I Need to, Need to find an internship (Need an internship)  
I Need to, Need to find an internship (Need an internship)  
I Need to, Need to find an internship (Need an internship)

## [14] Code Scholar Code! - Mustang Sally - The Commitments

Ohh ... Scholars, Guess you got to code your good thoughts down - 2x  
Ohh ... Scholars, Sure you will code your brainwaves down – 2x

And when the time is all gone  
You keep goin' on real strong

All you wanna do is code (it) down, scholar  
-- Code it scholar, code (4x)

And when the time is all gone  
You keep goin' on real strong

Thousand eighty lines of code – no clue what you're aiming for  
Please debug your source – Put your feet back on the floor

Ohhhhh, Scholars ....  
You only have to code - your good thoughts down  
And need to make sure - the graphs aren't upside-down

And when the time is all gone  
– You keep goin' on real strong

[solo]

All you wanna do is code (it) down, scholar  
-- Code it scholar, code  
All you wanna do is code (it) down, scholar  
-- Code it scholar, code  
All you wanna do is code (it) down, scholar  
-- Code it scholar, code  
All you wanna do is code (it) down, scholar  
-- Code it scholar, code

And when the time is all gone  
You keep goin' on real strong

## [15] Open Source is Mine – Should I stay or should I Go – The Clash

FOSS(4G) you got to let me know  
Shall I get it, shall I go  
If you say it can be mine  
I will do it every time  
So you got to let me know  
Open Source: my final goal

It's always script, script, script  
I'll be happy to be done  
One routine fine, next is bad  
I do not want to get it back  
Well, come on believe me now  
Open Source will be mine

[chorus]  
Open Source the final goal yee  
Open Source the final goal yee  
If I get it I will grow yee  
And if I fail I will blow yee  
So come on you have to know  
Open Source is the goal !!!

This App is buggin' me  
It does not want to set me free  
Look this figure is not right  
I don't mind I'm colour-blind  
So, come on, editing is mine  
I'm sharing, I am fine

[chorus]  
Open Source the final goal yee  
Open Source the final goal yee  
If I get it I will grow yee  
And if I fail I will blow yee  
So come on you have to know  
Open Source is the goal !!!

**[16] Something New – Bad case of loving you - Robert Palmer**

Long summer night Didn't see your bed.  
Haven't fiiiiinalized...your thesis yet.  
One more line. . one paragraph to go..  
Have to fiiiind... something really new...

[chorus]

Doctor Doctor, tell me the truth.  
Did you fiiiind something new?  
All these nights you stayed up — ooh. . .  
Did you fiiiiind something new?

A good idea... doesn't make no a paper yet.  
Sleepless- nights someday you'll regret.  
You should have made ... a better plan...  
Now you cry ... And make your pillow wet

[chorus]

Doctor Doctor, tell me the truth.  
Did you fiiiind something new?  
All these nights you stayed up — ooh. . .  
Did you fiiiiind something new?

I know you hate it. . you hate it a lot.  
Tell me now: Are you gonna stop?

It didn't turn you down... down on your knees. .  
Sacrifiiciied, more than four years  
We clap our hands. thumbs up too. .  
You got it done ... and you did it good

[chorus]

Doctor Doctor, tell me the truth.  
Did you fiiiind something new?  
All these nights you stayed up — ooh. . .  
Did you fiiiiind something new?

## [17] Keep on studyin' – Keep on rockin' - Neil Young

There's colors on the street Red, white and blue  
Students stamper their feet cause Elected ones decide to undo  
education budgets, inflow of the other flags Why no spread of erudition and geotags  
Do what you can, be a study fan! Let's uncover these con man!

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

I see a student in the night with a waiver in her hand  
Such a great fee: a study right and a visit to another land  
Now they put this lot away, and perspectives will be hit  
The UN development goals? What have we done to it?  
So many kids without options to update school.  
Will never fall with the academic cool.

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

[solo]

We got a thousand points of light for the global south  
let's offer a wider, open mind. Share our lowland routh.

.....

Matching other cultures like an academic bouquet  
which in the end will move boundaries away.  
I wonder who of us will these study limits turn  
into a sunny outlook, a warm welcome to learn.

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

Keep on studyin' in the free world Keep on studyin' in the free world  
Keep on studyin' in the free world Keep on studyin' in the free world

## [+1] The Book – The Look -Roxette

Walkin' in again Questions like a hammer  
Missed the notes and then— Never read the chapter  
Still they wanna pass now:  
Just get the book!  
Ask about the test Though the answer's in the lecture  
Tryin' to second guess "Do we need to know this?"  
It's written in the handouts:  
Just get the book!

Just get the book (I want no book) Just get the book (Don't want a book)  
What in the world can make a smart kid act this blue?  
When everything you need to know is there for you?  
And I go blah blah blah blah blah... Just get the book!

Fire in the eyes Deadline's on the table  
Didn't even try Copy from a label  
Didn't prep the reading:  
Just get the book!  
"Do we need to cite?" Yes, it's in the foreword  
Highlight every line Instead they just implore:  
"Can I pass without it?":  
Just get the book!

Just get the book (I want no book) Just get the book (Don't want no book)  
What in the world can make a full-grown brain play dumb?  
When answers that you need are in page one  
And I go blah blah blah blah blah... Just get the book!

[solo]

Walkin' in again Questions like a hammer  
wants a grade for his exam Never was a reader Comin' with excuses  
Just get the book!  
She goes (no no no no no no veel no's) Just get the book!

Just get the book (I need no book) Just get the book (Don't like the look)  
What in the world can make a lazy plan come true?  
When all the work was written out and meant for you  
And I go blah blah blah blah blah... Just get the book!  
What in the world can make a lazy plan come true?  
When all the work was written out and meant for you  
And I go blah blah blah blah blah... just get the book!

She goes (no no no no no no ) Just get the book (It's heavy too)  
He goes (no no no no no no) Just get the book (Prefer youtube)  
She goes (no no no no no no veel no's): Just get the book

## [+2] The best laser scanner – Whole Lotta Rosie -AC/DC

Wanna tell you a story  
'Bout this scanner you know  
When it comes to laser scannin'  
Oh she steals the show  
She ain't exactly pretty  
Ain't exactly small  
But the way she's performing...  
You could say she's got it all

Never had a scanner  
Never had a laser scanner like you  
Doing all the things  
Doing all the things you do  
You let me scan all the mountains  
And the bushes in between  
You give it all you got  
The best machine I've ever seen

[chorus]  
You're the best laser scanner  
A great laser scanner  
Die VZ-600  
Die VZ-600  
Die VZ-600  
You're a VZ 600 -- i

Oh honey you can do it  
Scan for me the whole day long  
Make another turn  
Another turn to turn me on  
Scan with me till night time  
Scan right around the clock  
To my surprise  
My scanner never stops

[chorus]  
You're the best laser scanner  
A great laser scanner  
Die VZ-600  
Die VZ-600  
Die VZ-600  
You're a VZ 600 -- i
